

## Seeking dedicated and passionate Veterinary Technician to join our team

**Compassionate Care Animal Hospital** of Ann Arbor, an AAHA-accredited and Fear Free Certified Practice, is adding an experienced veterinary technician, either full or part-time, to our vibrant, growing team. Candidates with their Veterinary Technician Licensure/License are preferred, but commensurate experience will be considered in lieu of licensure/license.

Together with our skilled, dedicated, and passionate staff, we are a full-service, general practice providing:

- wellness and preventative care
- acute and chronic illness treatment
- elective and illness surgeries

We use advanced technology including monitoring equipment, ventilator, and electrocautery, ultrasound, and digital radiology in addition to a dental suite. We accept established patient emergencies during normal business hours and hospitalize our own patients with technician monitoring overnight, allowing us to care for a wide variety of patients.

Clients come to CCAH for the thorough care and appreciate the diagnostics and therapies we offer. We are selective about the clients we retain and enforce our policy that requires clients to treat our staff members with respect.
